

Pedal to Prospect Sierra Day

Parental Permission & Liability Release

Explanation of Risks and Dangers

The danger and risks associated with this activity stem from the fact that we'll be traveling during the above described activity on public streets. Activities in public and traffic-filled environments are subject to sudden changes in weather, and potential encounters with vehicles and pedestrians, all of which can subject participants to the risk of accident resulting in injury, or even death. Bicycling, while even on designated "Bicycle roads" and "Pedestrian Pathways" is subject to unpredictable hazards. While all activities will be supervised by qualified and experienced personnel, and while safety will be of paramount concern, it is impossible to guarantee that accidents will not happen.

On Tuesday, April 21, students will gather at designated meeting points along a route to school, where they will join together, under the supervision of adults, to bicycle to the Middle School Campus at 960 Avis Drive. They will follow the same route in the afternoon on the way home.

Student's Name: _____ has my permission to participate in the Pedal to Prospect Sierra event on Tuesday, April 21st in the morning and in the afternoon.

I have read the above explanation of dangers and risks, and I fully understand and expressly assume the risks involved in bicycling to and from school, risks that could result in property damage, bodily injury, or even death, and I hereby release and hold Prospect Sierra and its employees harmless from any and all liability, actions, and damage of every kind and nature whatever, including negligence. I understand that all school rules apply.
