

Drawing and Comics Lab with Emily

Winter Session

January 14- March 25, 2019

THE *NATURAL* WORLD CREATES *GREAT BEAUTY* EVERY DAY, YET THE ONLY RULES OF COMPOSITION IT FOLLOWS ARE THOSE OF *FUNCTION* AND *CHANCE*.

Grades: 1-4

Mondays: 3:05-4:05 in the Art Room

8 sessions (no class Monday, January 21, February 18, March 4)

\$175 (includes \$20 materials fee)

Young artists "draw" inspiration from their lives to create believable people, places, and objects from imagination and reality. Each week, fundamentals are introduced and reinforced. Toys and treasures from the sea serve as still-life models, mannequins assist in capturing gesture, and perspective and point of view concepts lead to new compositional possibilities. These skills are applied as we develop characters and stories, creating original comic books to share with our family and friends!
